

PHOTO PAPER · SATIN

Photo Satin Midweight 260gsm

A bright white, resin-coated photo paper with a soft satin sheen. Its microporous coating dries instantly and helps protect the printed image, giving a wide colour gamut and crisp fine detail for true photographic prints.

260 gsm Weight	260 µm Thickness	>96% Opacity	12 -colour Epson OEM inks

Opacity	> 96%
Optical brighteners	Yes (Δb 8.16)
CIE whiteness (D65)	n/a
White point	L 92.7 · a 2.0 · b –10.1

INKS

Ink set	Epson 11 & 12-colour
Supply	Genuine Epson OEM only
Paper compatibility	Water-based pigment recommended

We print with genuine Epson inks only, never third-party refills. The extended colour sets reach a wider gamut than standard four-colour printing, with deeper blacks, smoother tonal gradients and consistent colour from one order to the next.

WE ALWAYS RECOMMEND ORDERING SAMPLES

Figures on a sheet only tell you so much. The best way to judge whether your reproductions suit this paper stock is to order a sample and see your own artwork on it.

Specifications are typical values provided in good faith and do not constitute a guaranteed specification. We recommend testing under your own application and environmental conditions.
