Opacity	> 98%
Optical brighteners	Minimal
CIE whiteness (D65)	109
Brightness (TAPPI)	100
White point	L 97.0 · a 0.7 · b 0.2
pH	7.5–9.5

INKS

Ink set	Epson 11 & 12-colour
Supply	Genuine Epson OEM only
Paper compatibility	Dye and pigment, Matte Black

We print with genuine Epson inks only, never third-party refills. The extended colour sets reach a wider gamut than standard four-colour printing, with deeper blacks, smoother tonal gradients and consistent colour from one order to the next.

WE ALWAYS RECOMMEND ORDERING SAMPLES

Figures on a sheet only tell you so much. The best way to judge whether your reproductions suit this paper stock is to order a sample and see your own artwork on it.

Specifications are typical values provided in good faith and do not constitute a guaranteed specification. We recommend testing under your own application and environmental conditions.
